Thank you! I'd be grateful for your ear on a call next week with Bitdah to perhaps figure out who from WD might be most helpful. At the moment, I have no data!

Hi Laura – WTR would like to provide the best support we can muster should a follow-up meeting be scheduled...what expertise would be most helpful (I'm thinking drinking water, not necessarily tribal...)? Please let me know what would be best and I'm happy to coordinate within the WTR mgmt team. Cheers - Jason

Team – Could you both check-in and decide who can cover this meeting and then coordinate with TIP.
Thanks
KG

Laura-

Attached are some notes we were forwarded. Given the summary, it seems like Water Division and ECAD should probably attend in addition to TIP?

Note - Since we don't permit or do corrective action at landfills unless there's an imminent and substantial threshold met for enforcement, I'd suggest we plan to rely on the state for dealing with the landfill.

Thanks!

Hi Adrienne,

Here are notes taken from colleagues who attended the meeting. Please let me know if you have any questions.

Thanks!
Vanessa

EXTERNAL:

Hello Bidtah and Vanessa,

Just checking in to see if you heard any updates from CalRecycle or Water Board folks who attended?

Thanks,
Adrienne

Subject: Re: update on Laytonville community meeting June 16th

Hello Laura, Martha, Jeff, Morgan, Bidtah, and Sarah,

The tribe and the rest of the community really need USEPA and other agencies to step up and immediately take action to protect residents living near the old dumps from further harm. The day after the meeting a Cahto Tribe member who lived on the rancheria passed away from cancer, just like most of her family who have also died from cancer. This situation cannot continue.

More studies are fine, putting a cap on one dump is fine and good (how about the other, worse one - the toxic burn dump?)....but studies and caps will not stop what is clearly an ugly health situation that is literally taking an enormous human toll. This is a heartbreaking, outrageous situation and decades of government inaction are to blame.

EPA must act without further delays to help those residents living near the dumps who want to move to do so. And of course we support the Cahto Tribe's efforts for new land that is not contaminated.

Bradley

Bradley,

Regretfully, EPA does not have staff available to attend the meeting tomorrow in Laytonville. I'm glad to hear that CalRecycle and the Regional Water Board do plan to be in attendance. We are interested in this issue as the conversation evolves, so please do keep me informed about future discussions in which we might be able to engage.

Thank you,

LE

Hi- not sure if anyone's been able to huddle with calepa on this yet.

Let's discuss more next week and establish a lead. I'd like us to respond next week.

Thanks!

Subject: Concerned Residents of Laytonville invites you to important community meeting June 16th 6pm

Hello,

I am writing at the request of Concerned Residents of Laytonville to ask you to attend, and bring the appropriate staff, to an important community meeting Thursday, June 16th at 6 pm. The meeting is to update the community, elected officials and government agency leaders and staff about the serious and ongoing health crisis impacting residents that many believe is the direct result of exposure to

contamination from the old landfills.

Residents will share their stories, concerns and requests, and we look forward to a constructive discussion about how to get people out of harm's way.

Please let us know if you are able to attend, thank you.

The invitation flyer is attached.

Peggy Hoaglin, Concerned Residents of Laytonville

Bradley Angel, Greenaction for Health and Environmental Justice
